

Installation Instructions

Step 1 - Lay out fence on a smooth, clean surface. Assemble fence by inserting pickets into rails. **DO NOT SLIDE IN FROM END OF RAIL**

Note: Last picket may need to be cut (ripped) to proper width

Step 2 - Set first post in proper location

Step 3 - Insert assembled fence into proper location in post (See Drawing)

Note: Bottom rail has metal insert

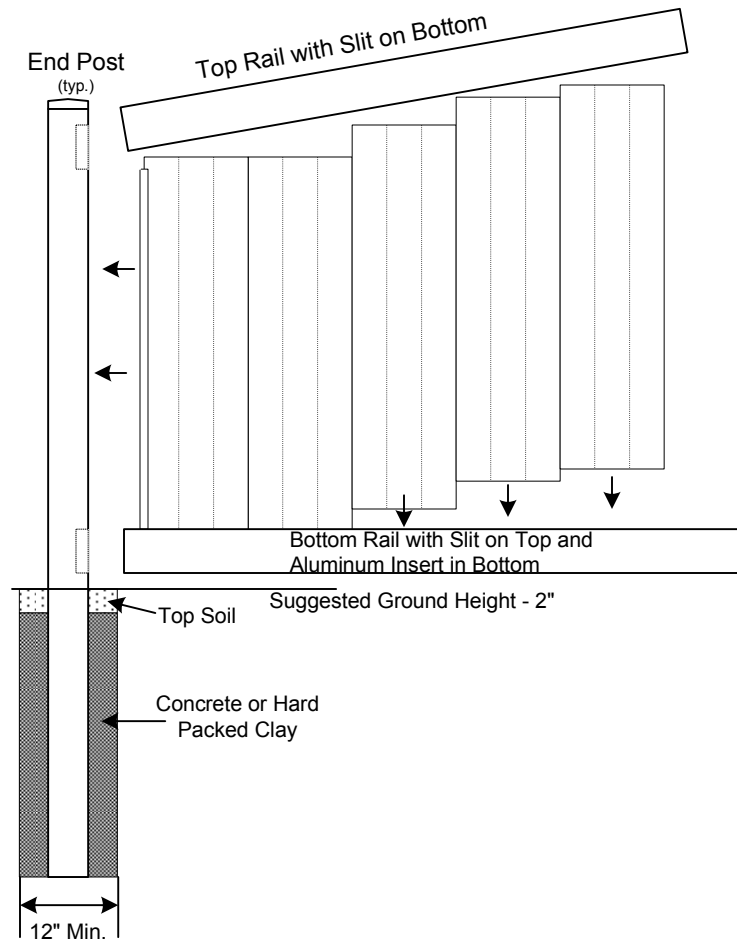

Step 4 - Place next post in next location and insert rails

Step 5 - Repeat until entire fence is installed

Step 6 - Enjoy your new fence from **Carolina Vinyl Products**
