

Installation Instructions

Step 1 - Lay out fence on a smooth, clean surface. Assemble lower part of fence by inserting panels into rails. **DO NOT SLIDE IN FROM END OF RAIL**

Note: Last panel may need to be cut (ripped) to proper width

Step 2 - Set first post in proper location

Step 3 - Insert assembled portion of fence into proper location in post (See

Drawing) **Note: Bottom rail has metal insert**

Step 4 - Slide lattice into place

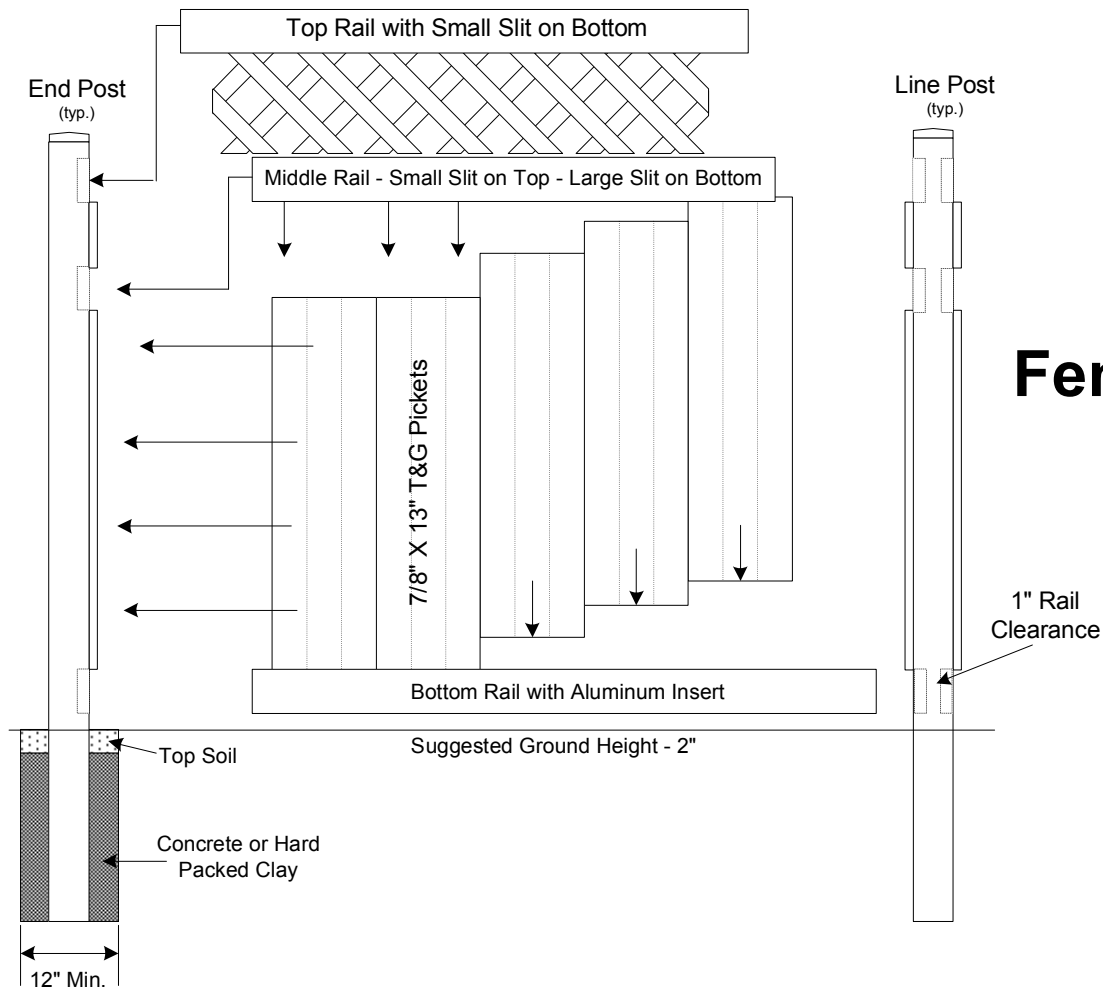

Step 5 - Place next post in next location and insert rails

Step 6 - Repeat until entire fence is installed

Step 7 - Enjoy your new fence from **Carolina Vinyl Products**
